**Edited by P. Wright**

Due to a typesetting error, the authors regret that an error appeared on the above-referenced article.

On page 1498, the equations in the text of the article 4 lines after Eq. (4), there is a serious error. The line should read:

$$P_n' = n \left[ (1 + \alpha)^{n-1} + Lc(1 + c\alpha)^{n-1} \right]$$

The prime is missing on the  $P_n$  and the “ $n$ ” should be outside the brackets.
